

Assignment N°3 – Shaders

Goal

Getting started with shaders (without using Shader class)

Exercise

- Create three triangles as in the below image

- The green triangle changes from green to black and back to green (by using the variable **uniform** in the shader)
- Windows name = Student name
- Window size = 800 pixels x 800 pixels
- Exit the program: E

Deliverable (a zip file - StudentName_AssignmentNumber.zip on blackboard)

- Screen capture
- Source code
- Compiled program
